Robotics Weekend at Imagination Station

TOLEDO, Ohio – – Humans have long had a fascination with robots, today these machines are simple enough for all ages to use and program! Aspiring robotics engineers can learn how robots are designed, built and programmed for specific tasks at Imagination Station, Saturday and Sunday, March 7 and 8.

Meet local robotics groups including Sylvania STEM and The University of Toledo Robotics Mining Competition Team. Then, compete against friends at robot soccer and test your programming skills by directing a robot through an obstacle course. Plus, get the chance to code your own robot!

Robotics Weekend activities are included in science center admission.

All Lucas County residents receive a \$2 discount and FREE Saturday admission for kids, 12 and under with paid adult admission. For more information, please call 419.244.2674 or visit www.imaginationstationtoledo.org.

Imagination Station provides a critical layer of science enrichment by serving as an educational partner for teachers, schools and parents. It's with a thoughtful blend of exhibits, experiences, education and excitement that Imagination Station inspires visitors to pursue STEM careers in Northwest Ohio.

WHAT: Robotics Weekend

WHEN: Regular Hours:
Tuesday – Saturday: 10am – 5pm
Sunday: Noon – 5pm
Monday: Closed
