## ***The Rooms of Illusion Open at Toledo's Science Center*** ***Imagination Station's Latest Temporary Exhibit is Mind Boggling!***

TOLEDO, Ohio – Seeing isn't always believing. Imagination Station's latest temporary exhibit uses color, light and patterns to create experiences that can trick the eyes and mislead the mind. *The Rooms of Illusion* opens Friday, February 14.

*The Rooms of Illusion* features four individually-themed interactive rooms with optical illusions that will challenge visitors' perceptions and allow them to see everyday surroundings in a whole new light!

**Optical Illusion Room:** The walls are crawling, the ceiling is spinning and the floor is floating...or are they? This wall-to-wall optical experience will make your head spin...even if the room isn't!

**Reflection Room:** Immerse yourself in a world of reflection and light! Strategically placed mirrors create an infinity effect that draw you in to take a closer look.

**Light Room:** The absorption and reflection of light has an effect on the colors we perceive. This room explores how our eyes interpret color under varying lights.

**White Room:** You will contribute to a kaleidoscope of color! The White Room is a community art piece inspired by Yayoi Kusama's *The Obliteration Room*. Leave your mark, then come back again and again to see this space transform right before your eyes!

Visitors who are crazy about the Gravity Room and other eye-tricking, mind-boggling experiences in the science center's Mind Zone learning world, will love *The Rooms of Illusion*!

*The Rooms of Illusion* is included in science center admission and is presented in partnership with COSI Columbus.

On Saturdays, all Lucas County residents receive a \$2 discount and FREE admission for kids 12 and under with paid adult admission, limit two children per adult.

Imagination Station provides a critical layer of science enrichment by serving as an educational partner for teachers, schools and parents. It's with a thoughtful blend of exhibits, experiences, education and excitement that Imagination Station inspires visitors to pursue STEM careers in Northwest Ohio.
