Meet the Winter Sisters during Snowmazing Science at Imagination Station

TOLEDO, Ohio – Snowmazing Science continues this weekend at Toledo’s Science Center, and it just wouldn’t be winter without a visit from the Winter Sisters! Welcome the arrival of cold and snowy weather with Elsa the Snow Queen and her sister Anna this Saturday at Imagination Station.

Bring your camera and your best smile for a photo with the season’s favorite princesses from 12 - 3pm and then sing along with them as they perform songs from Disney’s *Frozen 2* at 3:30pm! Snowmazing Science is presented by Comfort Line FiberFrame.

Also happening this weekend:

Snowmazing Science: Community Art Project

Help transform Imagination Station into a winter wonderland! Explore physics and learn how to use hand tools to construct a kinetic structure to display. Together we will fill Discovery Hall with a beautiful blizzard of twirling, swirling snow mobiles! *Activity included with admission.*

Tinkering Space: Electronic Greeting Cards

Send a holiday greeting with extra pizzazz this year! Add a few circuits and LED lights to your holiday message to create a card that twinkles and sparkles with all the festivity of the season. *Activity included with admission.*

Mini Explorers Club: Snow

1 – 2:15pm

Children ages 3 - 5 will practice the scientific method as they make observations, ask questions and take measurements to gather information about how ice melts and snowflakes form, and experience the wonder of “magic snow” that never melts. *Included in science center admission.*

Think Tank Workshop: Gingerbread Construction

2pm

Visitors ages 7 and up will become an architect and chef as they use engineering, geometry and holiday sweets to construct a gingerbread house. Then decorate it for the holidays with a string of festive LED lights. *Registration is required. Workshop pricing – members: \$6 each; non-members: \$8 each. Science center admission must be purchased separately for non-members.*

All Lucas County residents receive a \$2 discount and FREE Saturday admission for kids, 12 and under with paid adult admission, limit two children per adult.

Imagination Station provides a critical layer of science enrichment by serving as an educational partner for teachers, schools and parents. It’s with a thoughtful blend of exhibits, experiences, education and excitement that Imagination Station inspires visitors to pursue STEM careers in Northwest Ohio.
