Treat Mom to a Family Fun Day at Imagination Station

TOLEDO, Ohio – Moms work hard to care for their families as they inspire and encourage their children to explore their passions and follow their dreams. This Mother’s Day, thank mom for her endless support with a special day to explore, discover and create together as a family at Imagination Station.

On Sunday, May 13 moms receive free admission to the science center with a paid child admission.

Innovation Week continues through Sunday at Imagination Station. Visitors will electrify their ingenuity as they tinker with circuit blocks, test objects for conductivity and have a hair-raising good time with static electricity. Meet representatives from the Bedford Express FIRST Robotics Team and Sylvania STEM Center to learn how kids and teens are making a splash in the world of robotics engineering and programming.

Imagination Station provides a critical layer of science enrichment by serving as an educational partner for teachers, schools and parents. It’s with a thoughtful blend of exhibits, experiences, education and excitement that Imagination Station inspires visitors to pursue STEM careers in Northwest Ohio.

For more information, please call 419.244.2674 or visit imaginationstationtoledo.org/
