Warm Up This February at Imagination Station

TOLEDO, Ohio – From engineering to inspiring tomorrow’s female scientists, February at Imagination Station is full of science and activities for everyone! Check out our events this month!

**Think Tank Workshop — Sew ‘n Stuff
Saturdays at 2pm**

Design and create a stuffed animal to take home! Learn the basics of sewing and pattern-making.

**Tinkering Space — Electric Origami
All month**

Origami is a lot of fun, but watch what happens when you take it up a notch by adding copper tape, watch batteries and LED lights to make it light up!

**Popnology, sponsored by Pepsi Beverage Companies
Extended to April 28**

Visit Imagination Station’s temporary exhibition before it departs the science center! Discover how pop culture and sci-fi inspired today’s technology and science. Popnology tickets are \$4 for non-members and free for members, and are sold separately from admission to the science center.

**Girl Power!, presented by BP
Saturday, February 9**

Girls in grades 3-8 are invited to join us all day to explore Science, Technology, Math, and Science (STEM) fields. Participants will get hands-on with activities, ask challenging questions of STEM professionals, and have interesting discussions in workshops that will get them thinking about the opportunities that await them when they grow up.

**Mini Explorers Club
February 12 & 16, 2 – 3:30pm**

This new program invites our littlest explorers (ages 3 – 5) to create, explore and learn about the wonderful world all around them through fun, hands-on activities. For this month’s activity, become an engineer with your little one as you investigate the houses engineered by the three little pigs and identify the problems with each design.

-more-

**Open President's Day
Monday, February 18**

Imagination Station will be open 10am – 5pm on President's Day.

**Engineering Week
February 18 - 24**

It's a week of creativity and construction for this architectural challenge that uses only newspaper and tape. Visitors will work to build the tallest possible structure while learning valuable engineering techniques.

Imagination Station, Toledo's Science Center, is a vital non-profit organization that is an integral part of Toledo's economic, educational and social landscape. With hundreds of hands-on exhibits and demonstrations, Imagination Station delivers a multi-sensory experience that's as fun as it is educational. Imagination Station provides a critical layer of science enrichment by serving as an educational partner for teachers, schools and parents. It's with a thoughtful blend of exhibits, experiences, education and excitement that Imagination Station inspires visitors to pursue STEM careers in Northwest Ohio.

All Lucas County residents receive a \$1.50 discount and FREE Saturday admission for kids, 12 and under, with paid adult admission. For more information, please call 419.244.2674 or visit www.imaginationstationtoledo.org.
